Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 2 and 5-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Grivel Courmayeur Crampon (cited by applicant on 3/10/05) in view of Peyser (4344238).

Grivel Courmayer shows a crampon with heel and forefoot spiked members connected by a flexible multiplate linkage (see second page of article, first column, lines 7-10) and the flexible linkage is shown as being flexible to about 90 degrees in the photographs cited by applicant in the Grivel Courmayer Crampon disclosure statement filed 3/10/05 substantially as claimed except for the exact material for the heel and forefoot spiked members. Peyser teaches the use of plastic materials as an alternative for metals and other materials for heel and forefoot spiked members (see column 4 lines 44-45). It would have been obvious to use plastic as taught by Peyser for the spiked members in the crampon of Grivel Courmayer to reduce the weight and cost of the crampon.

3. Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 3/10/05 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE**

Art Unit: 3728

FINAL. See MPEP § 609(B)(2)(i). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
